Introduction

Myfreightcareer's Diploma of International Freight Forwarding has been developed to provide the learning and understanding at an advanced level for senior personnel in the International Freight Forwarding Industry

The qualification is designed for those working in advanced international freight forwarding roles and seeks to equip participants in the development of strategic initiatives as well as personal responsibility and autonomy in performing complex technical operations or organising others.

Successful completion will require the self-directed application of acquired knowledge and skills, with substantial depth in areas where it is required to plan and select appropriate equipment, services and techniques for self and others.

Myfreightcareer is well known as a leader in innovative training for our Industry and this Diploma continues that trend.

Course Details

Delivery Mode: Online (Self-Paced)

Course Duration: Maximum 24 months

Course Entry Requirements: This course is developed for learners in an advanced role in the International Freight Forwarding industry. This therefore is designed for current management, in a supervisory position looking to move into management or learners with a vast degree of industry experience, knowledge or skills.

Units/Subject covered during the course:

Unit Code and Description	
TLIA5059A	Plan and organise the international forwarding of freight by sea and multimodal transport
TLIA5060A	Plan and organise the international forwarding of freight by air transport
TLIA5061A	Plan and organise the international forwarding of freight by road and rail transport
TLIE5020A	Apply knowledge of freight forwarding documentation and permits
TLIK5009A	Apply knowledge of ICT to international freight forwarding activities
TLIL5061A	Apply knowledge of the international freight forwarding industry
TLIL5062A	Apply knowledge of logistics, storage and distribution to international freight forwarding
TLIL5063A	Review contracts, insurance, risk and liability in the international freight forwarding context
TLIO5020A	Advise on and manage security and safety in international freight transport
BSBHRM405A	Support the recruitment, selection and induction of staff
BSBMGT502B	Manage people performance
BSBCUS501A	Manage quality customer service
BSBFIM501A	Manage budgets and financial plans
TLIL5055A	Manage a supply chain

Unit Descriptors

The following is a more detailed description of the units involved in this Diploma.

TLIA5059A - Plan and organise the international forwarding of freight by sea and multimodal transport

This unit involves the skills and knowledge required to plan and organise international forwarding of freight by sea and multimodal transport (covering the importing, exporting and transiting of freight). This includes confirming customers' freight transport requirements; selecting routing for sea and multimodal transport; advising on and organising the packaging, packing, loading, stowage and storage of the freight; and completing freight forwarding calculations required for sea and multimodal transport. It also includes assisting in the organisation of insurance for sea and multimodal freight transport; organising permits, authorisations etc.; liaising with the freight forwarding global network; tracking and tracing international cargo being forwarded by sea and multimodal transport; and completing documentation and records required for sea and multimodal transport. There are no specific licensing or certification requirements applicable to this unit.

TLIA5060A - Plan and organise the international forwarding of freight by air transport

This unit involves the skills and knowledge required to plan and organise international forwarding of freight by air transport (covering the importing, exporting and transiting of freight). This includes confirming customers' freight transport requirements; selecting routing for air freight transport; advising on and organising the packaging, packing, loading, stowage and storage of air freight; and completing freight forwarding calculations for air transport. It also includes assisting in the organisation of insurance for air freight transport; organising permits, authorisations etc.; liaising with the freight forwarding global network; tracking and tracing international cargo being forwarded by air transport; and completing documentation and records required for air freight transport. There are no specific licensing or certification requirements applicable to this unit

TLIA5061A - Plan and organise the international forwarding of freight by road and rail transport

This unit involves the skills and knowledge required to plan and organise international forwarding of freight involving road and rail transport (covering the importing, exporting and transiting of freight). This includes confirming customers' freight transport requirements; selecting routing for road and rail freight transport; advising on and organising the packaging, packing, loading, stowage and storage of road and rail freight; and completing freight forwarding calculations for road and rail transport. It also includes assisting in the organisation of insurance for road and rail freight transport; organising permits, authorisations etc.; liaising with the freight forwarding global network; tracking and tracing international cargo being forwarded by road and rail transport; and completing documentation and records required for road and rail freight transport. There are no specific licensing or certification requirements applicable to this unit.

TLIE5020A - Apply knowledge of freight forwarding documentation and permits

This unit covers the competency required to develop, maintain and apply an in-depth understanding of required documentation, forms and permits to advanced freight forwarding activities. This includes the demonstration of the required knowledge of documentation, forms and permits; the consistent interpretation and application of that knowledge to the freight forwarding role and functions; and undertaking sufficient appropriate continuous professional development activities to maintain the currency of the required knowledge and understanding. International freight forwarding covers the importing, exporting and transiting of freight. There are no specific licensing or certification requirements applicable to this unit.

TLIK5009A - Apply knowledge of ICT to international freight forwarding activities

This unit involves the skills and knowledge required to develop, update and apply an understanding of current relevant ICT (information and communication technology) to advanced freight forwarding activities. This includes the demonstration of the required knowledge of applicable ICT; the consistent interpretation and application of that knowledge to the freight forwarding role and functions; and undertaking sufficient appropriate continuous professional development activities to maintain the currency of the required knowledge and understanding. International freight forwarding covers the importing, exporting and transiting of freight. There are no specific licensing or certification requirements applicable to this unit.

TLIL5061A - Apply knowledge of the international freight forwarding industry

This unit involves the skills and knowledge required to develop, update and apply an in-depth understanding of the international freight forwarding industry to advanced freight forwarding activities. This includes the demonstration of the required industry knowledge; the consistent interpretation and application of that knowledge to the freight forwarding role and functions; and undertaking sufficient appropriate continuous professional development activities to maintain the currency of the required knowledge and understanding. International freight forwarding covers the importing, exporting and transiting of freight. There are no specific licensing or certification requirements applicable to this unit.

TLIL5062A - Apply knowledge of logistics, storage and distribution to international freight forwarding

This unit involves the skills and knowledge required to develop, update and apply knowledge of logistics, warehousing, storage and distribution when performing advanced international freight forwarding activities. This includes the demonstration of the required knowledge of logistics, warehousing, storage and distribution; the consistent interpretation and application of that knowledge to the freight forwarding role and functions; and undertaking sufficient appropriate continuous professional development activities to maintain the currency of the required knowledge and understanding. International freight forwarding covers the importing, exporting and transiting of freight. There are no specific licensing or certification requirements applicable to this unit.

TLIL5063A - Review contracts, insurance, risk and liability in the international freight forwarding context

This unit involves the skills and knowledge required to review contracts, insurance, risk and liability in the international freight forwarding context. This includes examining an international freight forwarding sales contract; examining an international freight forwarding service contract; managing risk in international freight forwarding; assisting in organising transport insurance requirements; confirming or organising liability insurance requirements; assisting a customer to make a claim on a transport insurance policy; and making a claim on a liability insurance policy. International freight forwarding covers the importing, exporting and transiting of freight. There are no specific licensing or certification requirements applicable to this unit.

TLIO5020A - Advise on and manage security and safety in international freight transport

This unit involves the skills and knowledge required to advise customers on security and safety requirements within international freight transport and manage the security and safety arrangements for international freight. This includes assessing international freight transport security and safety risks; specifying international transport security and safety requirements; implementing transport security and safety plans and policies; and monitoring and reviewing security and safety system performance. International freight forwarding covers the importing, exporting and transiting of freight. There are no specific licensing or certification requirements applicable to this unit.

BSBHRM405A - Support the recruitment, selection and induction of staff

This unit applies to individuals with a role in recruitment, selection and induction functions who work under the direction of a human resources manager.

It is not assumed that the individuals addressed by this unit have staff who report to them, although this may be the case.

Performance of the work described in this unit will be underpinned by in depth knowledge of the work of the organisation, and how recruitment and selection practices fit with other human resource functions.

BSBMGT502B - Manage people performance

This unit describes the performance outcomes, skills and knowledge required to manage the performance of staff who report to them directly. Development of key result areas and key performance indicators and standards, coupled with regular and timely coaching and feedback, provide the basis for performance management.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

BSBCUS501C - Manage quality customer service

This unit describes the performance outcomes, skills and knowledge required to develop strategies to manage organisational systems that ensure products and services are delivered and maintained to standards agreed by the organisation.

Operators may have staff involved in delivering customer service and are responsible for the quality of their work. In many instances the work will occur within the organisation's policies and procedures framework. At this level, the exercise of considerable discretion and judgement, using a range of problem solving and decision making strategies, will be required.

BSBFIM501A - Manage budgets and financial plans

This unit describes the performance outcomes, skills and knowledge required to undertake financial management within a work team in an organisation. This includes planning and implementing financial management approaches, supporting team members whose role involves aspects of financial operations, monitoring and controlling finances, and reviewing and evaluating effectiveness of financial management processes in line with the financial objectives of the work team and the organisation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

TLIL5055A - Manage a supply chain

This unit involves the skills and knowledge required to manage a supply chain, including the relationships between an organisation and its supply and demand partners along the chain. It covers implementing a demand-driven supply chain management strategy, managing the supply chain, and evaluating and improving supply chain effectiveness. This unit has been derived from BSBPUR504A Manage a supply chain. Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Recognition of Prior Learning

RPL is based on the awareness that people learn in many different ways throughout their lifetime – through work experience and life experience as well as through education and training. RPL takes into account a person's skills and experiences, no matter where these were learnt, to enable people to get credit in a course of study.

Every UNIT in a course has set performance criteria that must be achieved before a participant will be deemed competent in that unit. In broad terms the process RPL involves matching what participants already know and can do with the performance criteria of the unit. If a participant can show they already have attained the performance criteria for one or more units then they will not have to do those particular units.

In this way RPL enables participants to focus on developing skills and knowledge in new areas, rather than re-learning what they already know to do.

Please indicate on the enrolment form that you wish to complete RPL and the RPL application form will be provided.

Enrolment Information

Fees

This Diploma as a total fee of \$3,400 the below unit summary shows the price break up for each unit. Each unit will be released to the learner once payment is received. The qualification can be paid in full at the beginning of the course or paid per unit.

UNIT OF COMPETANCY	Fee (\$)
TLIA5059A - Plan and organise the international forwarding of freight by sea and multimodal transport	\$360
TLIA5060A - Plan and organise the international forwarding of freight by air transport	\$360
TLIA5061A - Plan and organise the international forwarding of freight by road and rail transport	\$360
TLIE5020A - Apply knowledge of freight forwarding documentation and permits	\$80
TLIK5009A - Apply knowledge of ICT to international freight forwarding activities	\$160
TLIL5061A - Apply knowledge of the international freight forwarding industry	\$160
TLIL5062A - Apply knowledge of logistics, storage and distribution to international freight forwarding	\$80
TLIL5063A - Review contracts, insurance, risk and liability in the international freight forwarding context	\$360
TLIO5020A - Advise on and manage security and safety in international freight transport	\$240
BSBHRM405a - Support the recruitment, selection and induction of staff	\$200
BSBMGT502B - Manage people performance	\$280
BSBCUS501A - Manage quality customer service	\$240
BSBFIM501A - Manage budgets and financial plans	\$280
TLIL5055A - Manage a supply chain	\$240
TOTAL:	\$3,400

Frequently Asked Questions

WHY SELF-PACED LEARNING?

Self-paced learning is constructed in a way that you as learner can work through this qualification at your own pace, in your own time. We at MFC understand that the learners undertaking this qualification work in an environment where time for study and learning comes outside of the workplace and at all different hours.

This is why we give you, the learner, the flexibility to work on your assessments when you see fit. MFC's Diploma is based online via our Moodle e-learning platform; once you have a login and the unit available to you it is there for you to work on at your earliest convenience.

WHAT SUPPORT IS OFFERED FROM MFC?

During the hours of 0830 to 1700 AEST any support request sent via e-mail will be answered by one of our qualified and experienced trainers. All requests sent outside of these hours will be answered at the earliest convenience of our trainers the next day.

WHEN DOES THE COURSE START?

As the course is self-paced the start date will be once you choose to enrol in the Diploma and payment is received for the first unit of competency. It is then up to the learner to submit each unit for assessment once completed. The learner can then proceed to the next unit of competency once payment is received for that unit.
